DETAILED ACTION

This action is a response to applicants' amendment and arguments filed February 2, 2004. The examiner has withdrawn the previous Office Action in order to set forth a more concise position on the claims status.

The examiner has withdrawn the rejection made under the changes 35 USC 102 (e) by the American Inventors Protection Act of 1999. This statement is not proper and has therefore been withdrawn. The appropriate section of 35 USC 102(e) appears below.

Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 11, 16 and 23 are rejected under 35 U.S.C. 102(e) as being anticipated by Sohn et al (US Patent 5,988,171). The patent to Sohn et al discloses the limitations of the above claims including a visual indicator device. The visual indicator limitation is not entitled to the benefit of an earlier filing date before the Sohn et al June 1997 filing date.

To overcome this rejection, the applicant is invite to direct the examiner to the precise location the of rejected claims limitations that was filed before Sohn et al filing date.
